

PACKING PROCEDURES AND POLICIES

All cars to be shipped on an Adcock Northeast Auto Transport truck are limited to 200 lbs. of packed items. This consists of 2 suitcases or 1 suitcase and 1 bag of golf clubs. The DOT has imposed stricter policies on all trucks and is now requiring all trucks to get to a legal weight before they leave a scale. They are no longer just writing overweight fines, which we used to pay; they are now requiring our trucks to unload a vehicle off of the truck; the only way it can be avoided is with your cooperation with this policy.

*****IF YOU HAVE LIGHT ITEMS THAT DO NOT FIT IN YOUR TRUNK YOU MAY PUT THEM IN THE BACK SEAT AS LONG AS THEY DO NOT OBSTRUCT ANY VIEWS.*****

***DO NOT PACK ANY MEDICINE OR ITEMS THAT MAY BE NEEDED IMMEDIATELY DUE TO UNFORESEEN DELAYS IN TRANSPORT.**

As stated we are not required nor legally allowed to transport any personal property. We have done it as a convenience to you our loyal customers. However too many customers have been abusing this privilege and now more drastic measures have to be enforced.

Most auto hauling companies prohibit the inclusion of personal items in vehicles being shipped. This is for three very good reasons:

License & Insurance - It is against FMCSA regulations for carriers to transport personal possessions within a vehicle. Carriers risk fines for transporting any personal possessions. In addition, Northeast Auto Transport's insurance does not cover for the loss or damage of personal possessions included in a vehicle being shipped.

Weight - Auto Haulers have strict limits on the weight of loaded trucks and trailers. Additional, unanticipated weight of personal items could cause carriers to be overweight. In this situation, the carrier has to make a choice to drive overweight (risking fines and significant delays) or not take the vehicle.

Safety - Extra weight in the car could cause damage to the undercarriage during loading and unloading.
